ITI enhances its Data Centre Capabilities; Stock ends 1.5% higher

ITI has consolidated its position as a 'go to' player for both PSU and private companies in the Data Center space.

March 16, 2022 4:12 IST | India Infoline News Service

ITI Limited, country's first PSU post-independence and premier telecom manufacturing company has consolidated its position as a 'go to' player for both PSU and private companies in the Data Center space.

ITI's Data Center business has served over 50+ customers over the past 12 years that include public sector banks, financial institutions, Navaratna PSUs, telecom companies, MNCs and small enterprises from the year 2009-10.

ITI DC-Facility & Offerings

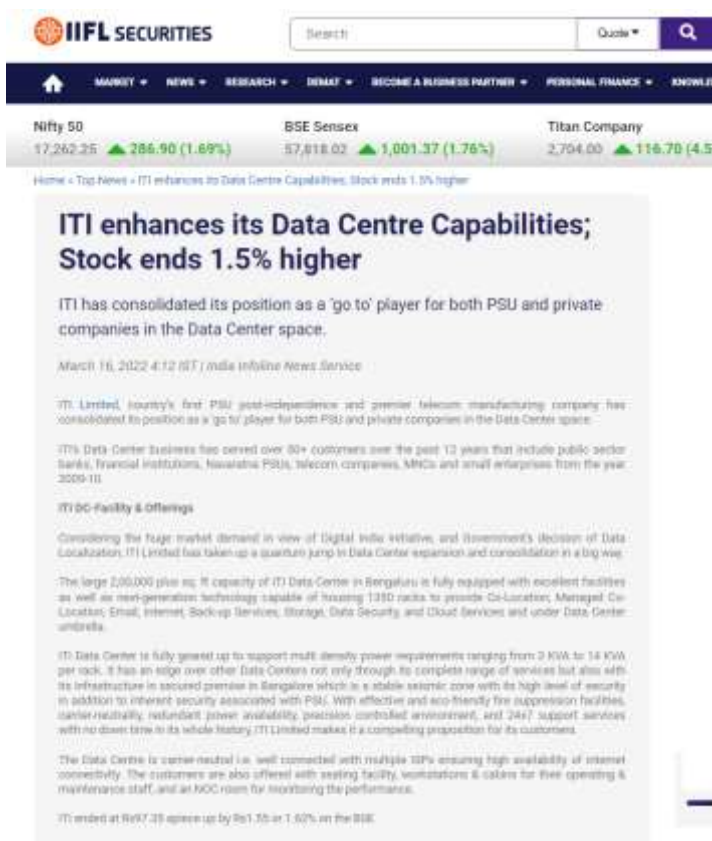

Considering the huge market demand in view of Digital India Initiative, and Government's decision of Data Localization, ITI Limited has taken up a quantum jump in Data Center expansion and consolidation in a big way.

The large 2,00,000 plus sq. ft capacity of ITI Data Center in Bengaluru is fully equipped with excellent facilities as well as next-generation technology capable of housing 1350 racks to provide Co-Location, Managed Co-Location, Email, Internet, Back-up Services, Storage, Data Security, and Cloud Services and under Data Center umbrella.

ITI Data Center is fully geared up to support multi density power requirements ranging from 3 KVA to 14 KVA per rack. It has an edge over other Data Centers not only through its complete range of services but also with its infrastructure in secured premise in Bangalore which is a stable seismic zone with its high level of security in addition to inherent security associated with PSU. With effective and eco-friendly fire suppression facilities, carrier-neutrality, redundant power availability, precision controlled environment, and 24x7 support services with no down time in its whole history, ITI Limited makes it a compelling proposition for its customers.

The Data Centre is carrier-neutral i.e. well connected with multiple ISPs ensuring high availability of internet connectivity. The customers are also offered with seating facility, workstations & cabins for their operating & maintenance staff, and an NOC room for monitoring the performance.

ITI ended at Rs97.35 apiece up by Rs1.55 or 1.62% on the BSE.

ITI builds up its Data Centre capabilities

BL Bengaluru Bureau |Updated On: Mar 16, 2022

Bengaluru, March 16 ITI Ltd, India's premier telecom manufacturing company, has expanded its data centre capabilities and consolidated its position as a 'go to' player for

both PSU and private companies in the space. ITI said that its Data Centre business has served over 50 customers in the past 12 years that include public sector banks, financial institutions, Navaratna PSUs, telecom companies, MNCs and small enterprises from the year 2009-10.

Considering the huge market demand in view of Digital India Initiative, and Government's decision of Data Localization, ITI Ltd said it has taken a quantum jump in Data Centre expansion and consolidation in a big way. The listed PSU said that its large 2 lakh plus sq. ft capacity of ITI Data Centre in Bengaluru is fully equipped with excellent facilities as well as next-generation technology capable of housing 1,350 racks to provide Co-Location, Managed Co-Location, email, Internet, Back-up Services, Storage, Data Security, and Cloud Services and under Data Center umbrella.

ITI Data Centre is fully geared up to support multi density power requirements ranging from 3 KVA to 14 KVA per rack. It has an edge over other Data Centres not only through its complete range of services but also with its infrastructure in secured premise in Bangalore which is a stable seismic zone with its high level of security. With effective and eco-friendly fire suppression facilities, carrier-neutrality, redundant power availability, precision-controlled environment, and 24x7 support services with no down time, ITI Ltd makes it a compelling proposition for its customers, it said.

The Data Centre is carrier-neutral as it is well connected with multiple ISPs ensuring high availability of internet connectivity. The customers are also offered seating facility, workstations and cabins for their operating & maintenance staff, and an NOC room for monitoring the performance, the PSU added.

ITI Enhances Its Data Centre Capabilities

T&D India March 16, 2022

- ITI Ltd has consolidated its position as a 'go to' player for both PSU and private companies in the Data Center space, a company release observed.
- ITI's Data Center business has served over 50+ customers over the past 12 years that include public sector banks, financial institutions, Navaratna PSUs, telecom companies, MNCs and small enterprises since FY10.

Data centers are the backbone of any digital infrastructure. ITI Ltd has been spearheading this revolution in building next generation Data Center and cloud infrastructure to help its customers meet their business objectives.

ITI DC-Facility & Offerings

Considering the huge market demand in view of Digital India Initiative, and Government's decision of Data Localization, ITI Limited has taken up a quantum jump in Data Center expansion and consolidation in a big way. The large 2,00,000+ sqft capacity of ITI Data Center in Bengaluru is fully equipped with excellent facilities as well as next-generation technology capable of housing 1,350 racks to provide Co-Location, Managed Co-Location, Email, Internet, Back-up Services, Storage, Data Security, and Cloud Services and under Data Center umbrella.

Fully Geared-Up

ITI Data Center is fully geared up to support multi density power requirements ranging from 3KVA to 14KVA per rack. It has an edge over other Data Centers not only through its complete range of services but also with its infrastructure in secured premise in Bangalore which is a stable seismic zone with its high level of security in addition to inherent security associated with PSU. With effective and eco-friendly fire suppression

facilities, carrier-neutrality, redundant power availability, precision controlled environment, and 24×7 support services with no down time in its whole history, ITI Limited makes it a compelling proposition for its customers.

The Data Centre is carrier-neutral i.e. well connected with multiple ISPs ensuring high availability of internet connectivity. The customers are also offered with seating facility, workstations & cabins for their operating & maintenance staff, and an NOC room for monitoring the performance.

Certifications

ITI Data Center is TIA-942 certified and there are several layers of security conforming to international standards viz. ISO 9001, 20000, 27001, 27017, and 27018. It has a 99.982% availability rate as per Tier 3 standards, which is concurrently maintainable, allowing for any planned maintenance activity of power and cooling systems without disrupting the performance of the Data Center. It is also CMMi Level 3 certified for IT operations. The Data Center has been successfully audited for Meity Empanelment as Cloud Service Provider for providing cloud services such as IaaS (Infrastructure as a Service), PaaS (Platform-as-a-service), and SaaS (Software as a service) under public, private, and hybrid cloud infra. ITI Ltd has also designed Government Community Cloud (GCC) for critical and confidential Government customers.

With greater proximity to high-speed networks and other services, enterprises can reduce latency, improve application performance and increase customer satisfaction and at the same time lower their total cost of ownership for infrastructure. ITI provides whole suite of Data Center infrastructure & managed services with highest power density that serves as one of the key differentiator allowing its existing customers to populate more compute infrastructure in lesser footprint reducing the operational expenses substantially.

Deep Commitment

On this occasion, Rakesh Mohan Agarwal, Chairman and Managing Director of ITI Ltd said, "ITI has been in the Data Center business for last 13 years by retaining renowned customers including public sector banks, financial institutions, PSUs, corporates, and other Government agencies. We are very happy to note that many blue-chip organizations are hosting their data with ITI Limited. ITI Limited has exhibited deep commitment to the Government of India's 'Digital India', 'Make in India', and 'Smart City' initiatives".

It has an edge over other Data Centers not only through its complete range of services but also with its infrastructure in secured premise in Bangalore which is a stable seismic zone with its high level of security in addition to inherent security associated with PSU. With effective and eco-friendly fire suppression facilities, carrier-neutrality, redundant power availability, precision controlled environment, and 24x7 support services with no down time in its whole history, ITI Limited makes it a compelling proposition for its customers.

The Data Centre is carrier-neutral i.e. well connected with multiple ISPs ensuring high availability of internet connectivity. The customers are also offered with seating facility, workstations & cabins for their operating & maintenance staff, and an NOC room for monitoring the performance.

Certifications

ITI Data Center is TIA-942 certified and there are several layers of security conforming to international standards viz. ISO 9001, 20000, 27001, 27017, and 27018. It has a 99.982% availability rate as per Tier 3 standards, which is concurrently maintainable, allowing for any planned maintenance activity of power and cooling systems without disrupting the performance of the Data Center. It is also CMMi Level 3 certified for IT operations. The Data Center has been successfully audited for Meity Empanelment as Cloud Service Provider for providing cloud services such as IaaS (Infrastructure as a Service), PaaS (Platform-as-a-service), and SaaS (Software as a service) under public, private, and hybrid cloud infra. ITI Limited has also designed Government Community Cloud (GCC) for critical and confidential Government customers.

With greater proximity to high-speed networks and other services, enterprises can reduce latency, improve application performance and increase customer satisfaction and at the same time lower their total cost of ownership for infrastructure. ITI Limited provides whole suite of Data Center infrastructure & managed services with highest power density that serves as one of the key differentiator allowing its existing customers to populate more compute infrastructure in lesser footprint reducing the operational expenses substantially.

On this occasion, Mr. Rakesh Mohan Agarwal, Chairman and Managing Director of ITI Limited said, "ITI has been in the Data Center business for last 13 years by retaining renowned customers including public sector banks, financial institutions, PSUs, corporates, and other Government agencies. We are very happy to note that many blue-chip organizations are hosting their data with ITI Limited. ITI Limited has exhibited deep commitment to the Government of India's 'Digital India', 'Make in India', and 'Smart City' initiatives", Mr. Agarwal said.

Data centers are the backbone of any digital infrastructure. ITI Limited has been spearheading this revolution in building next generation Data Center and cloud infrastructure to help its customers meet their business objectives.

Shares of ITI Limited was last trading in BSE at Rs. 95.80 as compared to the previous close of Rs. 96.65. The total number of shares traded during the day was 26789 in over 931 trades.

The stock hit an intraday high of Rs. 97.45 and intraday low of 95.25. The net turnover during the day was Rs. 2579409.00.

ITI ENHANCES DATA CENTRE CAPABILITIES

Mar-16-2022 15:00 Hrs IST

ITI has consolidated its position as a 'go to' player for both PSU and private companies in the Data Center space. ITI's Data Center business has served over 50+ customers over the past 12 years that include public sector banks, financial institutions, Navaratna PSUs, telecom companies, MNCs and small enterprises from the year 2009-10.

Considering the huge market demand in view of Digital India Initiative, and Government's decision of Data Localization, ITI has taken up a quantum jump in Data Center expansion and consolidation in a big way. The large 2,00,000 plus sq. ft capacity of ITI Data Center in Bengaluru is fully equipped with excellent facilities as well as next-generation technology capable of housing 1350 racks to provide Co-Location, Managed Co-Location, Email, Internet, Back-up Services, Storage, Data Security, and Cloud Services and under Data Center umbrella.

ITI, country's premier telecom company and multi-unit central public sector undertaking, is a total solutions provider in telecommunications segment.

आईटीआई लि. ने डेटा सेंटर क्षमताओं को बढ़ाया

आईटीआई डाटा सेंटर टीआईए-942 प्रमाणित है और अंतरराष्ट्रीय मानकों के अनुरूप सुरक्षा की कई परतें हैं

By DB NewsDesk Wed, 16 Mar 2022

आईटीआई सार्वजनिक क्षेत्र के बैंकों, वित्तीय संस्थानों, सार्वजनिक उपक्रमों, कॉर्पोरेट्स और सरकारी एजेंसियों सहित प्रसिद्ध ग्राहकों को बनाए रखते हुए पिछले 13 वर्षों से डेटा सेंटर व्यवसाय में है

बैंगलूरु/दक्षिण भारत। देश की आजादी के बाद पहली पीएसयू और प्रमुख दूरसंचार निर्माण कंपनी आईटीआई लिमिटेड ने अपनी डेटा सेंटर क्षमताओं को बढ़ाया है। उसने बताया कि डेटा सेंटर स्पेस में पीएसयू और निजी कंपनियों दोनों के लिए अपनी स्थिति को मजबूत किया है।

आईटीआई के डेटा सेंटर व्यवसाय ने पिछले 12 वर्षों में 50 से अधिक ग्राहकों को सेवा प्रदान की है जिसमें वर्ष 2009-10 से सार्वजनिक क्षेत्र के बैंक, वित्तीय संस्थान, नवरत्न पीएसयू, दूरसंचार कंपनियां, बहुराष्ट्रीय कंपनियां और छोटे उद्यम शामिल हैं।

आईटीआई डाटा सेंटर टीआईए-942 प्रमाणित है और अंतरराष्ट्रीय मानकों के अनुरूप सुरक्षा की कई परतों, जैसे— आईएसओ 9001, 20000, 27001, 27017 और 27018 से युक्त है।

टियर 3 मानकों के अनुसार इसकी 99.982% उपलब्धता दर है, जो समवर्ती रूप से बनाए रखने योग्य है और डेटा सेंटर के प्रदर्शन को बाधित किए बिना बिजली और शीतलन प्रणाली के किसी भी नियोजित रखरखाव गतिविधि की अनुमति देता है।

इस अवसर पर, आईटीआई लि. के अध्यक्ष और प्रबंध निदेशक राकेश मोहन अग्रवाल ने कहा, आईटीआई सार्वजनिक क्षेत्र के बैंकों, वित्तीय संस्थानों, सार्वजनिक उपक्रमों, कॉरपोरेट्स और सरकारी एजेंसियों सहित प्रसिद्ध ग्राहकों को बनाए रखते हुए पिछले 13 वर्षों से डेटा सेंटर व्यवसाय में है। हमें यह जानकर बहुत खुशी हो रही है कि कई ब्लू-चिप संगठन आईटीआई लि. के साथ अपने डेटा की होस्टिंग कर रहे हैं। आईटीआई लि. ने भारत सरकार की 'डिजिटल इंडिया', 'मेक इन इंडिया' और 'स्मार्ट सिटी' पहल के प्रति गहरी प्रतिबद्धता प्रदर्शित की है।
