PRESS RELEASE

ITI Limited Receives Letter of Intent (LOI) from Government of Maharashtra Worth Rs. 400 Crores

Mumbai/ Bengaluru: ITI Limited has received a Letter of Intent (LOI) from **Urban Development Department, Government of Maharashtra** for the implementation of a centralized monitoring system based on information and communications technology (ICT) for solid waste management procedures in all urban local bodies of Maharashtra. The value of this contract is **Rs. 400 Crores**. This project will run for a period of seven years.

The scope of work of includes:-

- Design, development, deployment & implementation of household/commercial waste collection monitoring technology for door-to-door collection of each household/commercial/other properties.
- Providing and supplying of scanify code stickers on each household/commercial establishment/other properties under jurisdiction of municipal corporation/municipal council.

As part of this contract, the Team headed by technical experts will visit each household/commercial/Waste collection points/other properties in the

Municipal Corporation/Municipal Councils for geo tagging of each household/commercial/other property on the map.

Registration of households/commercial/other properties will be done in the software. Artificial Intelligence (AI) techniques for analysis of garbage collected data on daily basis with time stamp and geo-tagging will also be adopted. Machine learning process to be implemented for garbage collection pattern collected from each household & dumped at dump yards.

Speaking on this occasion **Mr. Rakesh Mohan Agarwal, Chairman & Managing Director, ITI Limited** said, “We are delighted to foray into this new sector of solid waste management using our expertise in ICT and are proud to contribute towards ‘Swachh Bharat Abhiyaan’. **Mr. Agarwal** added, “The mission will be completely digital, leveraging digital technology for complete transparency and accountability through GIS-mapped waste management infrastructure, robust user-interface, and progress monitoring on integrated GIS-based platform. Use of technology in solid waste management will be a small step towards realising the country’s aspiration to make all Indian cities garbage-free, and ITI is proud to collaborate with Government of Maharashtra in this area”, he said.
