

Request for Industrial Consultancy

ITI invites industrial consultants either from individuals or from representing companies to discuss regarding SOC O&M.

About ITI:

ITI Limited is the first Public Sector Undertaking of India, under the Department of Telecommunications, Ministry of Communications. Government of India. It has been a leading telecom equipment manufacturer for India and has been a regular supplier to customers like BSNL, MTNL, Defence, PSUs and other Private customers for various turnkey projects, products and services. ITI has now diversified and upgraded its business in various fields such as Data Center, Cyber Security, Telecom Test Lab facility - EMI/EMC & Safety Lab as our endeavour to promote make in India, Atmanirbhar Bharat initiatives of Government of India. ITI has manufacturing units equipped with State-of-art manufacturing infrastructure and Marketing & Sales offices spread across the country.

About ITI SOC:

ITI is providing SOC solutions as a service through its Data Centre. ITI has setup a Multi-Service Platform at our premises to monitor, detect, contain, and remediate IT threats across critical applications, devices, and systems in our customer 's physical & virtual IT environments.

- SOCaaS is running with solutions like VAPT and SIEM.
- SoC Requirements – SOC is responsible for monitoring and analysing activities on networks, endpoints and more. The SOC service Center is consistently observing the abnormal activities, indicates potential breaches, security incidents or malicious activities in any networks. SoC also detects harmful attempts to compromise the network, assets and assist with the incident response life cycle, allowing the IT team to respond more efficiently, effectively and work towards preventing security breaches.

The List of offerings as defined services listed below-

1. Identity and Access Management
2. Next Generation Firewall
3. Network Access Control
4. End Point Detection and Response
5. Data loss Prevention
6. Email Security
7. Security Information and event Management (SIEM)
8. User and Entity Behaviour Analytics (UEBA)
